An abstract painting featuring bold, expressive brushstrokes in vibrant colors such as red, orange, blue, and black. The composition is dynamic, with various geometric shapes and organic forms overlapping. The background is a mix of light and dark tones, creating a sense of depth and movement. The overall style is reminiscent of modernist or expressionist art.

ENGLISH AND MATHEMATICS

An emphasis on developing academic skills through the study of English and Mathematics underpins the art and design curriculum at ISCA. Students have done well to achieve the required IELTS score to enter the higher education system in the UK.

Academic English provides important support to develop an art and design vocabulary to maximise learning, and Maths A Level remains a popular choice for students wishing to pursue further study in architecture or product design.

ISCA @ PLAY

Outside of their creative studies, students enjoyed a wide variety of activities including basketball, badminton and baking. There were visits to leading galleries and museums in London and Oxford. The Charities Committee organised events to raise money for important international causes. Other highlights included barbecues, film nights and theatre visits to London's West End.

MISSION

To be at the forefront of pre-university studies in art and design and provide students, from diverse cultural backgrounds, with a safe, dynamic and stimulating environment in which to learn and develop the technical and intellectual skills required to progress to leading creative arts universities in both the UK and overseas.

VISION

To achieve global recognition as an institution that prepares students of creative arts and design for the top universities in the world. This will be achieved through sustainable operational design and strategic planning aimed at developing excellence in our students' core skills and talents.
